An introduction to the FESC

## What We Do

The consortium  
assists the state in the  
development of an  
environmentally  
compatible, sustainable,  
and efficient energy  
strategic plan.

# OUR MISSION

Through collaborative research and development across the State University System and the industry, the goal of the **FESC** is to become a world leader in energy research, education, technology, and energy systems analysis.

*In so doing, the consortium shall:*

**A.**

**Coordinate and initiate increased collaborative interdisciplinary energy research among the universities and the energy industry.**

**B.**

**Assist in the creation and development of a Florida-based energy technology industry through efforts that would expedite commercialization of innovative energy technologies by taking advantage of the energy expertise within the State University System.**

**C.**

**Provide a state resource for objective energy systems analysis.**

**D.**

**Develop education and outreach programs to prepare a qualified energy workforce and informed public.**
